OLYMPIAD

3<sup>rd</sup> International Medical Science Olympiad (IMSO) 2026

Organizer by :

Supported by :

SEAMEO  
Regional Centre for  
QITEP  
IN SCIENCE

# Preliminary

---

One of the stimuli that needs to be done to increase the ability of students in the field of science, especially Biology, is to hold an Olympiad Event. The *Indonesia Scientific Society (ISS)* is an institution that is concerned with advancing the world of science in Indonesia. To improve the abilities of Indonesian students in the field of science, the Indonesia Scientific Society (ISS) is ready to hold the ***International Medical Science Olympiad (IMSO)***.

IMSO is a means of improving the abilities of international students in the field of science, especially Medical. International students are tested for their skills and dexterity in doing medical problems which can foster a positive attitude, especially in terms of critical thinking and being scientific.

# Purpose

---

The objectives of the IMSO are:

- ❑ Fostering a positive attitude, especially in terms of critical thinking and being scientific through the challenges of solving medical science problems.
- ❑ Give birth to the best students in the field of medical science who are ready to compete at the international level.

# Participant ‘Terms and Conditions

---

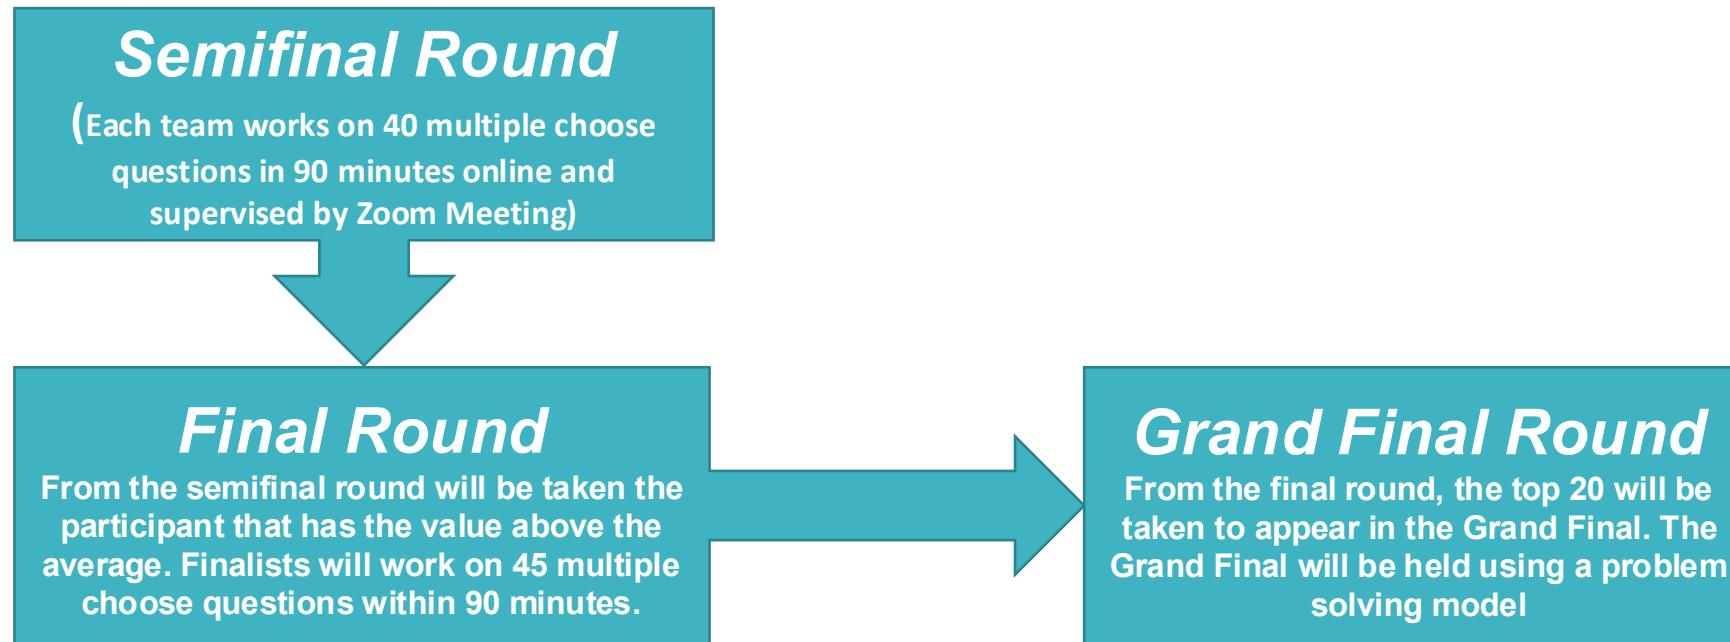

- Participants are students in grades IX, X, XI and XII
- Participants can represent schools or individuals.
- Participants are required to provide a stable internet network.
- Participants are required to have a mentor teacher who comes from the School or Guidance Institution.
- Participants must have a WhatsApp number as a means of communication and coordination between the committee and participants.

# Timeline

---

Date	Time	Agenda
